

Here are the lyrics from a song in the 2001 Song Fest:

We All Got Run Over By Mechanics!

- ALL We all got run over by mechanics,
 Studying meteorology at OU,
 You can say no such thing as Coriolis,
 But if you put that on the test you'll get a 2.
- Emily We'd been drinking too much coffee,
 And staying up till half past 3,
 But there's a quiz tomorrow,
 And we still don't know the velocity of the flea!
- Ashley When they found us on finals morning,
 At the scene of the attack,
 We had F marks on our foreheads,
 Should we open up our books or sell them back!
- ALL We all got run over by mechanics,
 Studying meteorology at OU,
 You can say no such thing as Coriolis,
 But if you put that on the test you'll get a 2.
- Pam Now we're all so proud of Ashley,
 She's been taking this so well,
 See her in there working on advection,
 She remembered that it equals minus $\nabla \cdot \mathbf{V}$.
- JV Its not Physics without Newton,
 Him and all of his 5 laws,
 You know the first one is inertia,
 And the second one $\mathbf{F} = m\mathbf{a}$
- ALL We all got run over by mechanics,
 Studying meteorology at OU,
 You can say no such thing as Coriolis,
 But If you put that on the test you'll get a 2.
- Pam Now that Frosty's propelling the rocket,
 And the snow is flying out,
 Using conservation of momentum,
 $\mathbf{V} \cdot \mathbf{m} = v_{rel} \ln(m_0/m)$.
- Emily We've warned all incoming Freshman,
 Better pay attention in physics,
 And learn a lot in diff. e.q.
 Cause if you don't you'll be singing songs just like this!
- ALL We all got run over by mechanics,
 Studying meteorology at OU,
 You can say no such thing as Coriolis,
 But if you put that on the test you'll get a 2.
